GLOBAL INNOVATION & DEVELOPMENT LUNCH AND LECTURE

Co-sponsored by the joint program on Innovation & International Affairs of The Nunn School and College of Management

FEATURING

Dr. Erica Fuchs
Engineering and Public Policy
Carnegie Mellon University

"Rethinking the Role of the State in Technology Development: DARPA and the Case for Embedded Network Governance"

Tuesday, 14 September 2010, 12 noon
Student Success Center (Press Room B)
on the Georgia Tech campus, directly adjacent to the Bobby Dodd stadium

Lunch is free and event is open to the public.
Please click below to reserve and receive directions (you will be connected to Google Docs):

Yes, I can attend the Erica Fuchs lecture on September 14th.
Reservation must be received by 12 noon on Sept. 13th.

Erica Fuchs is an Assistant Professor in the Department of Engineering and Public Policy at Carnegie Mellon University. Her research focuses on the role of government in technology development and the effect of location on the competitiveness of new technologies. In 2008, she won the Oak Ridge Associated Universities Junior Faculty Enhancement Fellowship for her research on the impact of offshoring on technology directions.

Before coming to CMU, Dr. Fuchs completed her Ph.D. in Engineering Systems at M.I.T. in June 2006, where she was a 2005-2006 Alfred P. Sloan fellow at the M.I.T Industrial Performance Center. She also received her Masters and her Bachelors degrees from M.I.T. in Technology Policy and Materials Science and Engineering, respectively. Prior to graduate school, Dr. Fuchs spent 1999-2000 as a fellow at the United Nations in Beijing, China. There, she conducted research at state-owned industrial boiler manufacturers on policies to encourage innovation.
